Member Concerns Action Plans Status Report
Report 2011-7
2012 May 4

These Action Plans are responses to a set of member concerns about the functioning of LSM. They were originally collected by Rose Berkowitz, a veteran Mensa member but a new member LSM, in response to an opinion editorial she wrote in 2010 in the November edition of the Armadillo Literary Gazette. Rose organized the concerns together with members' suggestions and her recommendations on how to resolve the concerns into a set of topics. She developed a set of tables for the topics and reported her results at the 2011 annual membership business meeting. Members attending the meeting provided additional concerns and suggestions, recommended the members be allowed to provide additional concerns, and recommended the final compilation be presented to the LSM Board of Officers for resolution.

Rose presented the report to the board at its February meeting. The board referred the report to a Committee of the Whole with additional members to develop one or more action plans for each concerns based on member suggestions and Rose's recommendations. The committee reported their recommended action plans to the board at the March meeting, The board adopted these recommendations without debate.

This report shows the status of LSM volunteers activities to resolve the related member concerns. The Status column shows red background and the word "None" if is no current action or "Delayed" if action had begun but was delayed. Yellow background and the word "Begun" if some action has been started, Active if some activity is taking place, "Delay" if action is waiting on something, "Done" if work is considered complete, and "Ongoing" if the item is recurring and continues to be done. Green background and the word "Approved" indicates that the Board considers initial work on a Member Concerns Report action item completed when the actions taken were:

- consistent with the actions the board recommended,
- reasonably expected to satisfy the member concerns
- sufficiently institutionalized that there is only a small chance that they will become a concern in the future.

The Action Plan / Status column shows what is being done for yellow status and what was done for green status.
